### PROFESSIONAL SUMMARY

Experience working with teams to brainstorm and whiteboard concepts. I love solving complex UX problems, and finding opportunities for good user experience. Having worked with good assortment of mobile, web, B2C and B2B products, I am highly proficient at conducting thorough user research, building wireframes at varying levels of fidelity and interactive prototypes for establishing and justifying the product direction.

My approach to good design is finding the right balance of user empathy, usability, aesthetics and a deep understanding of my users.
